

Blackhawk "Cougars"

Last year's Schedule

Last year Overview: Last year, the Blackhawk Cougars went 4-7 on the year. Even though 4-7 is under 500, they made the playoffs where they lost the first round to Armstrong. This team was inconsistent with a one-dimensional offensive. The defensive team last year tried to keep them in games but could not do so much.

Offensive Overview: This year, Blackhawk does retain key figures in their offensive. They get back their starting QB from last year, who is only going into his junior year. Last year Blackhawk ran the ball a lot more than they threw it. Just two tailbacks have more running attempts than throwing. This is what was the downfall of this team.

Defensive Overview: Last year's defensive had some games where they kept them in it as much as they could. Then they had a game where it was nowhere close.

Overall: This year's team has a shot to be good; it all starts with the offense. Most of the players on the offensive are in their junior or senior year, which gives them a better chance to play because they play a lot of ball. Now for the defensive, they just have to keep the offensive in the game enough to win.
