

Central Valley Warriors

Last Year Schedule

Last year's Overview: The Warriors went 11-2, losing the WPIAL title to Aliquippa. Expect that the loss last year was an amazing one, as both sides of the ball were clicking. What helped them win last year was being a team that had tons of seniors.

Offensive Overview: This offensive last year was a force to be wrecking with. They had a strong air attack with former QB1 who had +1,300 Yards on the season and had four WR over 100 yards. Then the running game where they had a tailback close to 1,800 yards on the season.

Defensive: Just like the offensive this Defensive was a beast of a team. They had 4 games in the year where they shut out the other team. They only had a handful of games where they let in more than 20-plus points.

Overall: As we sit here, they lost so many key players this year. They lose their top passer, rusher, and receiver; these are your main key points in an offense. This year is going to have a lot of growing pains as they will be a younger team.
