

East Allegheny Wildcats

Last year schedule

Last year's overview: The wild cats had an explosive year. They went 5-1 at the end of September, then came October where they suffered some losses. Their season ended in the quarter-final round for the second year in a row with a final record of 8-4.

Offense Overview: The Wildcats offense was nearly unstoppable last year. They averaged 26 points a game. What made this possible was their dual-threat quarterback who could use his arms and legs. He threw for 1,874 yards with 16 touchdowns. He rushed for 917 yards and 9 touchdowns. Their quarterback wasn't their only rusher, they had two great running backs who both ran for 250 plus.

This year's schedule

Defense Overview: The Wildcat defense had a relatively good year this year only having a select few games where they played badly. They averaged 25 points scored on them a game.

Overall: The Wildcats retain all their top stars on their offense. They get back their starting quarterback, their dynamic duo of wide receivers, and their top two running backs. Their offense is going to be very fun to watch, as they have a chance to open up the playbook and be creative. The defense has to slightly improve if they can control the game a little bit more so the offense can work.
