

Freeport Yellow Jackets

Last year schedule

Last year's overview: The Yellow Jackets had an impressive year going 10-2 overall and undefeated in their section. On top of this regular season success they also had a deep run in the playoffs until they lost to Now WPIAL and PIAA champion Belle Vernon.

Offense: Last year the Yellow Jackets had an offensive explosion. They had a QB that had 1,001 yards and 11 total

touchdowns to only 4 Ints. They had three total receivers over the 150-yard mark on the season. Then the running game Yellow Jackets top tail-back had 1,075 on only 102 total attempts with an average of 10.5 a carry. This team knew how to score as they averaged 32 points a game.

Defense: Freeport was lights out this year. They shut down practically everyone they played only have two games above 20 plus points. They averaged 15 points scored on them a game.

Overall: Last year's Yellowjackets team was carried by seniors this past year. They now have a sophomore-year QB who only had 11 total passes with only 5 of them being completed. They also lost 4 total wide receivers who had a dominant season. They will also be restarting in the running back room as well with losing two rushers. There are just so many holes right now in this team that's why this year is being labeled as a rebuild.

Date	team	Score
08-26	vs. Indiana	W 28-8
09-02	@ South Allegheny	W 37-15
09-09	vs. Quaker Valley	W 61-7
