

## Laurel Preview:

**Last Season Recap:** The Spartans last season had yet again another dominant season going 9-2. Only losses coming in week 1 against Neshannock and in the playoffs against the would be WPIAL champs the Union Scotties. When the Spartans would win they would not just put up two scores they would put up 6 to 7 scores in almost every game they won last year.

**Offense:** Laurel had an amazing offense last year with key players being 2023 graduate RB Landon Smith who had 30 touchdowns with an amazing 1,747 yards. They also had 2023 graduate WR Carter Haney who averaged 41.1 YPG.

**Defense:** Carter Haney was not just getting it done offensively he was also getting it done on the defensive side as well. Haney had 24 solo tackles and 42 assisted tackles which led him to have a total of 66 tackles all season. That's not all there was also a kid by the name of Colin Bartley who had 22 solo tackles and 30 assisted tackles that led him to 52 tackles total on the year.

**Overall:** The Spartans have been a very dominant team these last 2 seasons. This upcoming season we are gonna see a lot of fresh new faces hitting the turf because the Spartans have lost 6 dominant seniors. We are going to be seeing sophomore QB Luca Santini under center for Laurel this season. Last year in 5 games played Santini had 3 completions on 5 attempts with a total of 17 yards. Overall this season is sorta gonna be a rebuilding season for the Spartans as they try to fight their way back to the top of 1A with another dominant season.

Season record prediction: 8-2
