

Trinity Hillers

Last years schedule

Last year's overview: The Hillers had another year of being able to sniff the playoffs but not be in them. They went 3-6 overall and 2-4 in section play.

Offense overview: The offense showed promise last year, and now sophomore quarterback Jonah Williamson has shown he can be a dual threat. He was able to score with his arm and with his legs. This offensive line has some players who are attracting coaches from FCS schools. Last year, they averaged 18 points per game, which is not bad for a freshman QB.

Date	Team	score

10-28	@ Ringgold	W 29-7

This year's schedule

Defense overview: Last year, the Hillers' defense was unreliable, as they had only lost under 20 points. They kept them out of most of their losses as the offense could not keep up.

Overall: The Hillers are going the right way. Their wild card this year is their underclassman; they have some really good players who we haven't seen. If there is going to be a year when they make the playoffs, I have a feeling it is going to be this year. They are going to shock people because of how young they are.
