

Upper Saint Clair Preview:

Last Season Schedule:

Last Season Recap: Last season, the Panthers found themselves starting off the season with a 6-game winning streak and runner ups in the 5A WPIAL Championship. In every win they had the team 17 or more points, while the defense in all but two of those wins held teams to 10 or less points.

Offense: The Panthers ran a two-quarterback system last year with now Junior Julian Dahelm and now Sophomore Ethan Hellman. Both QB's threw for 900+ yards and a combined 25 TD's with only 4 interceptions each. However, their top 4 receivers and leading rusher were all seniors, meaning most of their weapons for the year are all newcomers.

Defense: This team on six different occasions held their opponents to single digit points, and nine times held teams to 14 points or less.

Overall: Overall this Upper Saint Clair squad has an interesting season ahead of them with their great two QB's but no support on the other end. Graduate Aidan Besselman had 817 of the 1,988 receiving yards thrown, while graduate Jamaal Brown had 1,489 of the 2,601 rushing yards from last season with a combined 24 TD's between these athletes. However, never count out what USC and their great coaches can do.
