

West Allegheny "Indians"

This Year's Schedule

Last year's overview: West Allegheny had a strong start to their 2022 campaign. Then they fell off the last two games of the season, which carried into their only playoff game where their season ended.

Offensive Overview: The Indian's offensive is losing their starting Quarterback who had over 1,000 passing yards. They also lost two out of their top receivers who all had above 200 total yards. Their running game is keeping their number one guy as he is going into his junior year.

This Years Schedule

Defensive Overview: The Indians defense had a strong first half of the year but in the second half it seems they lost steam Getting blown two out of the last three games.

Overall: Overall this Indian team can go above the five-hundred mark. I don't see this team making a deep playoff run as they do lose some key players on both sides.
