

Woodland Hills Preview:

Last Season Schedule:

Last Season Recap: The Wolverines went 6-6 last season, however they did find themselves into the second round of the WPIAL playoffs.

Offense: QB Cam Walter eclipsed 1,011 yards passing last year, and that was his sophomore year. However, he did throw more interceptions than TDs. 4 different players had 100+ receiving yards with two of which averaging 11 + yards a reception. Rushing wise the Wolverines had depth with two different players having 500+ yards rushing with another two players having 100+ rushing yards.

Defense: This defense had three shutouts and a game where they only allowed three points and allowed an average of about 18 points per game. With a few rising players this defense can be a real threat.

Overall: Woodland Hills is going to have a winning record this season. Walter is only a sophomore allowing him enough time to progress into a great QB, one half of the dynamic rushing duo is returning, and a few other key players are returning as well.

DATE	TEAM	SCORE & RESULT
