

Shenango Preview:

Last Season Recap: The Wildcats last season continued with another disappointing season. They finished last year with a record of 2-8. The only wins they had last year were against division opponents Northgate and Summit Academy.

Offense: Last season in 10 games the Wildcats had a mediocre offense. They mainly ran the ball and finished the season with 165 yards total. 131 of those yards were rushing and 34 of those came from the passing game.

Defense: Shenango's defense was pretty solid in 2022 they only gave up 248 yards total which is better than most of the teams in the Wildcats section.

Overall: With the loss of class of 2023 RB C.J Miller this upcoming season for the Wildcats is sorta gonna be a mystery but will definitely be fun to watch behind 2025 QB Sam Patton.

Season record prediction 4-6
